Costs and Limitations of Certified Health IT (EZDERM)

Capability and Description	Costs or Fees	Contractual Limitations	Technical or Practical Limitations
Capability: EZDERM Description: EZDERM's electronic health records system. Relevant Certification Criteria: See chpl.healthit.gov for list of certification criteria applicable to EZDERM.	EZDERM charges certain one-time and ongoing fees in connection with EZDERM software. Users may also be required to reimburse the cost of certain third party fees and pay for services such as training and implementation.	EZDERM's users are required to enter into contracts in forms acceptable to EZDERM in order to use EZDERM's products and services. Such contracts, among other things, set forth certain rights and obligations of the user and EZDERM, product pricing and payment terms, limitations on the use of products and services (e.g., limitations on number and type of users) and other terms. The duration of such contracts may vary.	EZDERM recommends that EZDERM be used in conjunction with hardware and internet connections that meet certain minimum specifications. Those specifications are available upon request.
Capability: Lab Interface Description: Interface between EZDERM and participating third party laboratories for the receipt of inbound lab results and the transmission of lab orders.	EZDERM does not charge its users an additional fee for the use of interfaces between EZDERM and third party laboratories. EZDERM does charge the third party laboratories fees.	Users may only use lab interfaces within the service guidelines specified in their agreements with EZDERM.	Use of an interface with a third party laboratory may require the establishment of an interface between EZDERM and the applicable laboratory. The cooperation of the third party laboratory may be required to establish the interface. Use of a third party laboratory interface is dependent on the third party laboratory maintaining a functioning interface with EZDERM and transmitting results and receiving orders in the format required by EZDERM.
Capability: Direct Mail Description: Ability for users to send and receive electronic messages to other users that are part of the Direct Trust network or HISPs with which EZDERM's third party direct messaging vendor has a trust agreement.	No additional fee charged for Provider level users of EZDERM. Users remain responsible for EHR subscription fees. Non-Provider level users may be charged a recurring subscription fee for Direct Mail if they wish to have their own Direct Mail account in EZDERM.	Direct Mail may only be used pursuant to the service guidelines specified in the agreement.	Use of this capability is dependent on EZDERM maintaining its relationship with a third party direct messaging vendor. Direct Mail requires the user to take additional registration steps, which include certain additional identity authentication requirements. Messages may only be sent to users that are part of the Direct Trust network or HISPs with which EZDERM's third party direct messaging vendor has a trust agreement.
Capability: Qualified Registry for MIPS Data Submission Description: EZDERM offers certain MIPS measure automation and data transmission services to EZDERM users through an interface with a third party Qualified Registry for MIPS Data Submission.	EZDERM does not charge its users an additional fee for MIPS Data Submission. The third party Qualified Registry for MIPS Data Submission which EZDERM interfaces with does charge certain fees for services provided.	The registry may only be used pursuant to the service guidelines specified in the agreement.	Use of this capability is dependent on EZDERM maintaining its relationship with a third party Qualified Registry for MIPS Data Submission. Providers are required to take certain actions before data is submitted to the registry. Certain providers may be required to submit data through a third party registry in certain circumstances.
Capability: Application Program Interface ("API") Description: The API allows the EHR application to receive a request from another software with enough information about the patient to identify the patient and provide the patient summary of record according to specific certification criteria.	No additional fee charged. Users. Users remain responsible for EHR subscription or licensing fees.	Client may only use the API within specified service guidelines.	Users are responsible for obtaining a SSL certificate from a third party.

The above description assumes standard contract terms and conditions. The above is only intended as a summary of certain costs, fees and limitations. users should review any agreement in its entirety before entering into it. The fees and costs set forth above are subject to change. EZDERM's users are required to enter into contracts in forms acceptable to EZDERM in order to use EZDERM's products and services.
