

Ezpay: Fully Integrated, Managed Payments

Why Ezpay?

Ezpay is a fully integrated payments solution built directly into the Ezderm ecosystem and powered by Square. Patient payments, balances, and financial records sync automatically across Ezderm, eliminating double entry, reconciliation errors, and disconnected systems. Collect payments securely in person, online, or by text with a seamless experience for staff and patients.

Upgrade to Ezpay. Get a free Square Terminal.

Payments solution fully integrated into Ezderm—no duplicate entry or reconciliation

Offer patients multiple ways to pay, including cards, digital wallets, online bill pay, and text-to-pay

Provide upfront, insurance-based cost estimates to improve transparency and point-of-service collections

Automatically reconcile payments and eliminate mismatched ledgers and posting errors

Securely store cards on file and charge balances with documented patient consent

24/7 payment collections with online bill pay or via SMS using Ezlink.

Track medical, cosmetic, and retail sales with real-time inventory integration

Grow your practice with Square’s marketing, loyalty, payroll, and banking tools

How does it work?

Pair Square hardware directly with Ezderm. Payments, items, patients, and users sync automatically—so every transaction posts in real time to the correct patient record and financial ledger. There’s no manual entry, no rekeying, and no disconnected systems to manage.

What does it mean for your practice?

Save front office time by eliminating manual payment entry and reconciliation

Collect revenue 24/7 with integrated online bill pay and secure text-to-pay links

Improve patient trust with clear, upfront cost estimates before payment

Protect your practice with built-in fraud, risk, and liability management¹

Reduce compliance burden—PCI, tokenization, and security are handled by Square

Lower processing costs with card-present rates compared to card-not-present transactions

1It’s estimated that achieving and maintaining PCI Level 1 compliance can cost businesses \$50,000+ annually, including the cost of audits, compliance fees, and internal IT resources.
